Career Objective :

Passionate MERN Stack Developer with experience building 20+ full-stack web apps (React, Node, Express, MongoDB) using Firebase/JWT. Seeking an entry-level role to apply my problem-solving skills and ES6+ expertise in creating scalable solutions while growing in a team environment.

Skills:

Technical Skills:

Frontend : JavaScript(ES6+) | React.js | Tailwind CSS | Daisy UI | HTML5 | CSS3

Backend : Node.js | Express.js | RESTful API

Auth: Firebase | JWT

Database: MongoDB

Dev Tools / Cloud: GitHub | Vercel | Firebase Hosting | Figma (Basic)

Soft Skills: Hard Working | Responsibility | Quick learner | Problem Solving | Teamwork

Projects :

Volunteer Management | Live | Client | Server

A platform connecting donors and recipients to optimize volunteer management and reduce waste. Users can donate or request volunteer assistance.

Tech Stack: MERN Stack | Firebase Authentication | JWT | Tailwind CSS

- Engineered a secure user authentication system leveraging Firebase and JWT to ensure data protection.
- Developed a robust RESTful API using Node.js and Express.js for efficient CRUD operations.
- Designed and implemented a fully responsive React frontend delivering a seamless and intuitive user experience.

app-orbit | Live | Client | Server

An interactive platform for gardeners to share knowledge and showcase work.

Tech Stack: MERN stack | Firebase Auth

- Implemented secure, role-based access control (e.g., user or non-user) using Firebase.
- Developed a dynamic user dashboard to display personalized content based on user activities.
- Engineered a well-structured RESTful API with Express.js for clean routing.

Education :

Diploma in Electrical and Electronic Engineering (EEE)
Shymoli Ideal Engineering College, Chittagong

Languages :

- Bangla (Native)
- English (Comfortable)
